AOB

- Speed reduction/traffic calming measures and crossing points are needed on Eaglesham Road, Jackton. A crossing point has been started but not completed.
- Stretches of the pavement between the new Jackton roundabout and the police college are uneven, narrow and in poor condition. This makes it difficult to navigate, especially with a buggy or younger children on bicycle. Can this be improved?
- Can cycle lanes be incorporated into new road designs in the area?

Next Meeting –September 18th. 2024, 7.30PM Thorntonhall Tennis Club.
